

Respected Sir/Madam,

I am Dr. K. Asokan, an accomplished professional who served the Government sector for 35 years, retiring as an Assistant Director on June 30, 2025. As a passionate advocate for education and social welfare, I am dedicating my post-retirement career to teaching and serving as a Resource Person for NGOs, educational institutions, and colleges. My comprehensive training and awareness programs cover crucial areas of immediate societal relevance, including: Environmental Education: Focusing on Climate Change, Disaster Management, Rain Water Harvesting, and Water Pollution. Social Welfare: Programs for Marginalized Communities and on developing Life Skills.

Health & Education: Child and General Education Awareness, Women and Child Health and Sanitation. Youth Empowerment: Motivation and Career Guidance for unemployed youth and those seeking Higher Education through initiatives like the Vazhndhu Kaattuvom scheme.

My expertise includes designing and delivering targeted Life Skills programs for college and higher education students. These interactive sessions focus on bridging the gap between academics and career readiness by developing crucial soft skills, including effective communication, critical thinking, stress management, and professional ethics. This specialized training is integral to my broader Career Guidance initiatives, successfully preparing youth for employment and self-reliance, often in collaboration with schemes like Vazhndhu Kaattuvom.

My significant contributions have earned widespread appreciation from various NGOs and District Collectors. Furthermore, I am a highly decorated recipient of major state awards, including the Tamil Nadu Chief Minister's Award (Anna Gallantry Award-2022), the Environment Protection and Education Awareness Award (Sudarolli Viruthu) (2019), and the Environment Protection and Wildlife Management Award – (Puravalar Viruthu-2021), presented by the Honourable Tamil Nadu Government Environment Minister, Mr. Meyyanathan.

I am eager to discuss how my expertise and acclaimed programs can contribute to your organization's mission and outreach. Please feel free to contact me at your earliest convenience to explore a potential collaboration.

Thank you for your time and consideration.

Sincerely,

(Dr. K. Asokan)

Enclosure Certificate

Ex-Kovai zoo director on a roll

M Rafi Ahmed

Good veterinarians talk to animals. Great veterinarians hear them talk back. This maxim aptly fits in for veterinarian Dr K Asokan, who made his passion a profession and was better known as a "lifesaver". To his credit, he has over 1000 plus surgeries performed on snakes, birds, crocodiles, chameleons as District Veterinary Officer and Zoo Director at VOC Park Zoo (now defunct).

With 33 years in the Tamil Nadu Animal Husbandry Department, the veterinarian said in a touch of pride that he has done some rare surgeries on animals which fetched him a plethora of recognition. Like a crowning glory, he received the Anna Gallantry award from Chief Minister M K Stalin last year during the R-Day fete in Chennai which he felt was an honour for his selfless service in rescuing animals from the jaws of death.

Recently, he received two awards from Environment Minister Meiyanthan at an event held in Chennai. The award was given under the aegis of Tamil Nadu Environment and Climate Change Department

Environment Minister Meiyanthan honoured veterinarian Dr K Asokan from Coimbatore with two eco awards for awareness on climate change and wildlife protection at an event held in Chennai. Flanked by are Additional Chief Secretary, Environment and Climate Change department Supriya Sahu and Director, Department of Environment and Climate Change Deepak S Bilgi.

in the presence of Additional Chief Secretary, Environment and Climate Change department Supriya Sahu and Director, Department of Environment and Climate Change Deepak S Bilgi. Dr Asokan was honoured with the Environment Protection and Management Award for 2019 and the Environment Education and Awareness Award for 2022.

Opening his career as farm manager at Chinnasalem Sheep Farm in the composite Villupuram district (now Kallakurichi district) in 1990, Dr Asokan later moved to District Livestock Farm at Hosur in Dharmapuri district and Chettinad in Sivaganga district. And later as

veterinary assistant surgeon at Agaramudi in Kumbakonam. As a workaholic, he showed his prowess working in Pudukkottai, Nagapattinam, Nilgiris, Erode districts besides on special duty to West Bengal.

He was instrumental in creating awareness on climate change and wildlife protection among 2 lakh participants including school, college students and public. 'Work is worship' for Dr Asokan as he was back to his parent department of Animal Husbandry after serving on deputation in the forest department. He had served as Wildlife Veterinarian at Mudumalai Wildlife Sanctuary and National Park, Nilgiris district, and

at Sathyamangalam Tiger Reserve Erode district and City Veterinary Officer & Zoo Director V.O.C. Mini Zoological Park, Coimbatore.

Despite his achievements and recognitions, his flip side seems to be saddening since he is at the fag end of his career sans any promotions or increments. Now, he is a veterinary assistant surgeon at Kovipalayam Veterinary Hospital in Pollachi, Coimbatore district. Hope some good news pours in for him. It is said--The best doctor in the world is the veterinarian. They can't ask the patients what's the matter. They have got to just know. Kudos to Dr Asokan for his love and care towards animals.

APPRECIATION CERTIFICATE

This is to certify that Dr. K. Asokan working as an Extension Officer, Panchayat Union Office, Avinashi is well known to us for the past one year.

In our organization, we have 107 women SHG groups functioning in the target villages of Avinashi block. In order to motivate and lead these SHGs towards identifying and initiating economic activities for their social and financial empowerment, we organized one -day seminar on initiation of economic activities through SHGs on Decemebr12, 2002 at Kulalar Kalyana Mandapam, Avinashi, with the help of Dr.Asokan, B.V.Sc. In this seminar 62 women groups participated and gained knowledge on selecting suitable trades. Dr. Asokan and others helped 32 women groups to start new trades with the aid of bank within a short span of time.

Further, we have heard that he is introducing new type of biogas plant with low cost.

He is enthusiastic in planning and executing group activities with proper coordination and optimistic approach.

We thank him for his continued good work and readiness for assisting the SHGs for their empowerment.

Wishing him all the best in his future endeavors.
